JORDAN DAVIDSON

Frontend Developer
UI & UX Designer

ABOUT ME

I am a passionate Frontend Developer with a diploma in Application Development Multimedia. I specialize in creating user-friendly, visually engaging, and responsive web applications. My strong work ethic, adaptability, and enthusiasm for continuous learning drive me to excel in collaborative team environments. I am excited to bring my creativity and technical skills to a forward-thinking organization.

EXPERIENCE

Frontend Developer

BankSeta

January 2024 - June 2024

As part of the BankSETA programme, I had the opportunity to work on my first real-world client project, where I designed and developed a fully functional travel website from the ground up.

Over the course of six months, I communicated regularly with the client, held feedback meetings, and implemented changes to ensure the final product aligned with their vision.

I used HTML, CSS, and JavaScript to build a responsive and interactive site, integrating tools like Formspree for seamless contact form submissions and Setmore for an easy-to-use booking system..

Skills

Technical skills

HTML, CSS , JavaScript, Bootstrap, React, GitHub, Visual Studio Code

Design & Prototyping

Wireframing, User Flows, Interactive Prototypes, Figma, Canva

Soft Skills

Attention to detail, team collaboration, client communication, Time management
