[Web Portfolio](#)

Cape Town, Western Cape

### SUMMARY

Creative and detail-oriented Front-End Developer with 3 years of experience designing responsive web experiences. Skilled in translating user needs into clean, accessible interfaces using HTML, CSS, JavaScript, and Figma. Passionate about solving real-world problems through thoughtful design and scalable code. Most proud of my final-year project "Tours and Wine Tasting", an online travel service designed to help users discover and book curated wine experiences.

### EDUCATION

Diploma in ICT Multimedia Applications

[Cape Peninsula University of Technology](#)

2022 - 2024 Cape Town

### EXPERIENCE

Front-End Developer internship

[BANKSETA](#)

01/2024 - 06/2024 Remote

- Designed and developed a fully responsive travel and booking website from concept to deployment.
- Created clean, modular code using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Delivered the project within tight deadlines, demonstrating strong time management and problem-solving skills.

### PERSONAL PROJECTS

#### Web Portfolio

My personal web portfolio is a website that highlights my development skills, past projects, and professional experience

- Designed and built a fully responsive portfolio website.
- Created low-fidelity wireframes in **Figma** to plan layout and user flow before development.
- Developed a clean, modern UI using **HTML5**, **CSS3**, **JavaScript**, and **Bootstrap**, with a focus on accessibility and visual hierarchy.
- Implemented smooth scroll navigation, animated transitions, and section-based structure for an engaging user experience.
- Optimized for performance and responsiveness across devices, with mobile-first design principles.
- Deployed the live site via **GitHub Pages**, using **Git** for version control and iterative development.

#### Weather App

Developed a real-time weather application using the **OpenWeatherMap API**, displaying accurate weather data such as temperature, conditions, wind speed, and humidity.

- Leveraged **JavaScript** for API integration and real-time data updates, creating a smooth and interactive user experience.
- Implemented dynamic location search and set **Cape Town, South Africa** as the default location, enhancing the user experience with localized data.

### INDUSTRY SKILLS

HTML CSS JavaScript Bootstrap

React Figma Canva

Visual Studio Code

UI UX Wireframing

Interactive Prototypes User Flows

Trello

### COURSES

Multimedia Design

Multimedia Practice

Multimedia Technology

Project Management | Presentation

Application Development
